Trip Bitung - Ternate (or vice versa)

Lembeh

Muckdiving at it's best! Different species of seahorses, octopuses, nudiebranch and many other weird critters can be found. A heaven for macro lovers. Good buyoncy skills are a must!

Tifore

Rising between Halmahera and Sulawesi, in the very deep open Sea of the Maluku, the dive sites around Tifore are mostly plateau's with sheer walls and steep slopes. Here we can find a school of thousands barracudas and trevallys hanging in the current. This is a great divesite where your adrenaline gets going.

Goraichi Islands

The Goraichi Islands have many great dive sites with one of the most amazing fish life zones in Halmahera. Stunning reefs overgrown with colorful hard and soft corals. Also pelagic coming by. Oceanic white tip sharks have been spotted. Mantas can be seen around Pulau's Lilei and To-limao. On Pulau Lilei we have a chance to visit the local village and walk around a bit taking selfies with the local inhabitants.

Bacan

We can offer a great landtour organised by the Tourism Department of South Halmahera. This normally includes visiting an old Portuguese fort, traditional dancing, local market, and a few more.

Makian

Black sand diving, similar to Lembeh and Panambuang. A descent macro site where good critter life can be found.

Ternate

In front of the Mosque there are a few wrecks on diveable depth. A perfect spot to do checkdives at the start of a trip or to end the last diveday with. Crocodile flatheads, nudiebranches, ghostpipe fishes, etc. can be seen.

Trip Bitung - Labuha (or vice versa)

Patinti Strait

The Patinti Strait is a channel between Halmahera and Bacan Island which holds excellent reefs full of blooming orange soft corals packed with anthias, plenty of large soft coral covered bommies in all different colours and different species. Here we can expect some good currents which gives us the chance to see lots of reef sharks; black tip, white tip and grey reef sharks as well as many other pelagic. Also during nightdives the walking shark can be spotted. But no worries, also for the non-current divers there is plenty of sites to dive and see great underwater life.

Bacan

We can offer a great landtour organised by the Tourism Department of South Halmahera. This normally includes visiting an old Portuguese fort, traditional dancing, local market, and a few more.

Panambuang

Black sand diving similar to Lembah Strait. Here we offer a few different sites, with a jettydive as an absolute highlight! Weird critters, nudibranch, walking shark and even the bobbit worm have been spotted regularly. Good buoyancy skills are a must!

Pigaraja

On the South-East of Bacan is a small island with the name Pigaraja, in front of a small village on Bacan. Here we offer a wreck dive amongst diving along amazing coral reefs. This wooden ship sank some time ago and is already covered with sponges and soft corals. A lust for the eye. Around the island are some great coral reefs, where excellent nightdives can be done!

Bacan South-West

Here we have a few divesites with stunning walls and canyons. An absolute feast for the eye! Due to open to the ocean, divers should be aware for some currents. Don't forget to look 'into the blue' because a good size of schooling barracudas and trevallys can be seen as well as reefsharks, napoleons and bumphead parrotfish coming by.

Panambuang

Black sand diving similar to Lembeh Strait. Here we offer a few different sites, with a jettydive as an absolute highlight! Weird critters, nudibranch, walking shark and even the bobbit worm have been spotted regularly. Good buoyancy skills are a must!

Bacan North-West

In between the islands of Kasiruta and Bacan we offer a few good divesites. Due to current lots of reefsharks can be seen as well as other pelagic. On the island Pogo Pogo we can offer some 'beach' time. A small resort is being build and we have permission to "use" their beach for a few hours. A great way to end a trip; with your feet in the sand, an refreshing drink in your hand, overthinking your trip and remember all the beauties you have witnessed under- and above water!
