Almost all dive sites are also great for **snorkeling**. Whether a trip is suitable for snorkelers is **clearly marked when booking the trip**.

Check-in & Organization

A well-organized check-in ensures a relaxed start to your diving vacation. Please come to the dive center **by 3 p.m. at least one day before your first planned diving or snorkeling day**. There we will do the check-in together and **pack your personal equipment box**. Please bring your mobile phone to check-in – we have a digital system.

Equipment & Storage

- Own **equipment box with lockable locker**
- Key will stay with you until check out ( spare key provided)
- 3 sinks: you usually wash and hang your equipment yourself
- **We offer an optional all-inclusive service.** If you just want to dive and always find your equipment **dry and clean ready for diving** , you can report this to us and one of our trained staff will be responsible for your equipment during your holiday. At the end of the holiday, this person is happy about a financial appreciation, the amount depends on your discretion and your possibilities.

Drying rooms

- **4 drying rooms** with assigned boxes & hangers
 Please **hang equipment** there
- The marked outdoor stands **only for guests checking out** (so that everything dries completely)
- For several house reef dives, the equipment can remain in the **beach center** , but after the last dive, please hang up the equipment in the drying room (do not leave it outside or at the beach center).
- Please always hang your equipment in the drying room overnight – we sometimes have strong winds

All planned activities for the following day must be registered by 3 p.m. the day before at the latest.

This applies to:

Diving without a guide (unguided)

Almost all our dive sites – including house reefs – can **be dived guided or unguided**. For a few spots, a **guide is mandatory for safety reasons** (at no additional cost).

Requirements for unguided diving

- At least **25 logged dives**
- **Welcome Dive** with our team on the house reef mandatory
- Positive feedback from the guide
- At least **1 buddy** who meets the same requirements
- At least **1 SMB (Boye) per buddy team**

 If there are justified safety concerns, we reserve the right to **make a guide mandatory**.

Dive time limit unguided diving per dive:

- **House Reef Beach:** 90 minutes or 50 bar residual pressure (exceptions e.g. for sidemount or solo diver are possible, but must be communicated to our crew at the beach center)
- **Zodiac House Reef:** 60 minutes or 50 bar residual pressure
- **Full-day boat trips:** 75 minutes or 50 bar residual pressure
- **Speedboat/minibus excursions:** 60 minutes or 50 bar residual pressure

***Why not "NO LIMITED DIVETIME?":** The limits in the dive time were determined for organizational and safety reasons. For no limit dives, we cannot guarantee the safety of the divers as well as a smooth and punctual daily routine. The limitation allows us to plan the day on time (boat return, dive site change) and is an indication of possible missing or distressed divers. Exceptions to this limitation must be discussed with the base management.*
